

Classification. 3141 **No.** 7598 **State** Kansas

Place Wood.

OK

Description. Broom corn threshing or seeding. The machine owner furnishes all equipment, his services and that of one other man, threshes and bales for \$1.00 per bale. At that time they were turning out about 8 bales 370 pounds each-per hour. The farmer furnishes the other labor. Machine has chain feed, fingers on chain holds head so that spiked cylinders can strip out seed. Pressure on hole from plunger at bottom of press. Power furnished by one horse-make $\frac{1}{4}$ to $\frac{1}{2}$ revolutions on lever.

W. M. Hurst Oct. 13, 1926.
